A LETTER FROM THE PRESIDENT

21ST ANNUAL MEETING & SCIENTIFIC SESSION AMED DENTAL MICROSCOPY MEETING 2022

On behalf of the entire Academy of Microscope Enhanced Dentistry family I am honored to announce our 2022 annual meeting to be held on Sept. 15-18, 2022 in San Diego, CA at the Marriott Marquis Hotel. This will be in-person presentations and workshops.

AMED has created a strategic partnership with the Western Society of Periodontology in a ground-breaking format where three (3) meetings will be held concurrently in the same space. Attendees can select from any of the presentation by any of the associations. The three associations will also feature “co-sponsored” presentations that will be of vital interest to every attendee. We anticipate over 700 attendees at this special event.

The 2022 AMED program is themed “Achieving Dynamic Synergies through Interdisciplinary Teams”. AMED is committed to expanding the use of the dental microscope in all phases of dentistry. This expansive multidisciplinary program will showcase the limitless opportunities in microscope-based dentistry.

AMED will present several interactive, hands-on experiences for our attendees:

- Ergonomics in Dentistry: Save your back, save your neck, Save your career
- Basics in Microscopy: Helping beginners use the power of their microscope
- Advanced Micro Endodontics: Learn the latest cutting-edge techniques
- Introduction to Microscopy: Helping new dentists make the leap to microscopy
- Platelet Rich Fibrin: Advanced techniques for tissue regeneration
- Microscope based biomimetic restorative dentistry: Amazing direct Composite Restorations

And many more....

AMED will feature our sponsors and exhibitors from the podium before each presenter and we want all of our partners to be featured prominently in our hands-on workshops. This is why you are so important to us as we are important to you. If you are successful then we all are successful.

AMED realizes you have precious few resources now and you absolutely do not want to spend scarce capital or manpower with no return. AMED understands this and this meeting is testament to our desire and inventive drive to create an expanded meeting with over double the attendees from a wide variety of dental practices and introduce them to your products and services like never before.

We invite you to join us in this ground breaking meeting. Let us get back to life as we once knew it where we all came together and learned, shared, added new products and techniques to our practices and the great dental innovators, inventors had an audience. We want and need you there.

If you have any questions about the meeting or ideas or suggestions on how we can work together and make this an even better meeting I am always open to listen. Also, please reach out to Todd Goldman with any exhibit or sponsor questions you might have.

I look forward to seeing you all in September in San Diego.

Sincerely yours,

Dr. Cheryl Sheets, DDS

Custom Sponsorship and Advertising Packages

Please contact us regarding donation opportunities and custom sponsorship and advertising packages.

STUDENT SCHOLARSHIPS

This fund will allow AMED to provide partial and full scholarships for students to attend AMED meetings.

RESEARCH FUND

Develop meaningful studies to investigate the impact of the clinical microscope on dental treatment outcomes, To test the hypothesis that the clinical microscope increases the specificity and the sensitivity of diagnostic capabilities, improves the accuracy of treatment procedures, decreases post-operative healing time and pain, and improves the longevity and stability of treatment.

EDUCATION & PROMOTION FUND

AMED's mission is to promote the benefits of microscopy to clinicians, educators, students and the public. The educational and promotion fund will be used for creating videos, educational resources, marketing and documentation for AMED members to better communicate the benefits to their colleagues, use in their practices to educate patients and to increase AMED membership and attendance for webinars/annual meeting.
